Summary

Web developer who builds end to end with Claude Code: research, design, code, testing and deployment. I ship custom web apps with Supabase and Vercel, and marketing sites in Framer and Webflow. At Ripio I worked with Claude Code and AI agents in daily development.

Work Experience

UI Developer · Ripio · Remote, Argentina — Dec 2024 - Oct 2026

- Integrated AI into my daily work, using Claude Code and AI agents for code generation, problem-solving and faster delivery.
- Built and maintained the Ripio marketing site in Webflow, a leading Latin American crypto and fintech company, including the homepage, quotes page and stablecoins page.
- Extended pages with custom JavaScript, API integrations and dynamic forms.
- Worked with marketing and product teams to ship responsive, pixel-perfect pages.

Freelance Web Designer and Developer · Lacaze · Remote · Independent studio — 2025 - Present

- Build custom web apps end to end with Claude Code, from design and code to a Supabase backend and Vercel deployment: Kine (clinical records app for physiotherapists, with a body pain map, SOAP sessions, PDF reports and a paid Pro plan), Daily (patient activity log with weekly reports) and Tierras Argentinas (open atlas of foreign-owned land in Argentina).
- Built 247WC, an iPhone app that finds nearby public restrooms, and the website for 2MG, an events technology company.
- Design and build landing pages and full websites in Webflow and Framer, from Figma to publication, with a CMS so clients can edit their own content.

UI Designer · Simplify · Remote — Dec 2023 - Dec 2024

- Developed client websites in Framer from Figma specs, including animations, CMS collections and multi-language support.

UX/UI Designer · Municipio de Río Grande · Río Grande, Argentina — Jan 2021 - Mar 2023

- Led user research, prototyping and UI design for public digital platforms serving 100K+ residents.
